

Keene Public Library Parent Letter

Dear Parent or Guardian:

The Keene Public Library is pleased to see children develop good library habits at an early age. This includes instruction on the proper care of books, the feeling of responsibility for all materials checked out, and the need for returning materials on time, so that others may use them. We urge you to make these good library habits known to your child at the time their library card is issued.

You should be aware that written library policy permits children access to all resources and materials in the library, including access to the Internet and grants them as a cardholder all rights of user confidentiality. As a parent or guardian, if you desire to limit your child's access to library materials, you should make this known to your child. The library does not withhold materials from any cardholder.
